## Message from the Director General's Desk

Dear Reader,

Teaching and research are two wings of a university. We cannot ignore either. In fact, both of them complement and supplement each other. An effective teacher always includes new facts and theories in his teaching, while a passionate researcher embeds his research insights in his teaching. Universities, however, differ on balancing the ratio between teaching and research. A research-oriented university expects its faculty to devote at least fifty per cent of their time on research activities. On the other hand, a teaching-oriented university envisages its faculty to spend around twenty to twenty-five per cent of their time on research work.

Research creates new knowledge and helps the society raise the standards of wealth and well-being of people. The human race has immensely benefitted from research and innovation in the last three centuries. Interestingly, the intensity of research, development, and innovation efforts is on increase and the coming decades will witness a vibrant and dynamic knowledge society. India, in spite of having the third largest higher educational system in the world, has not satisfactorily performed on the research front and her universities have to reinforce their research and innovation activities. They have to support research at all levels – undergraduate, graduate, doctoral and faculty.

Relevance, rigour and integrity are sine qua non for effective research. Relevant research is good research. On the contrary, irrelevant research is bad research. Therefore, the issue of relevance has to be the get-go point of any piece of research. Then research questions must be examined, using rigorous methods. Last but not the least, a researcher is expected to demonstrate the highest standards of integrity in data collection, analysis and reporting.

At times some researchers are tempted to compromise their integrity to show the validity of their work, publish in well recognised journals and to gain fame. It is unfortunate that a large number of predatory journals have emerged in India. These journals publish papers without any scrutiny and only on the basis of payment received from the contributors. The articles published in such journals are often plagiarised, their data are cooked and statistical rigour is hardly observed.

Faculty publishing in predatory journals cannot develop high quality students who are critical and reflective thinkers. Consequently, students do not develop competencies required to be successful in the global world.

At Nirma University, we are determined to conduct meaningful and high quality research with full integrity. We believe that we can change the society for better through good research and relevant innovation. Although we are still a very young university with meagre resources, we marshal our efforts to contribute to scholarship and to make India a truly knowledge society.

I urge my faculty and students to dedicate themselves to cutting edge disciplinary as well as interdisciplinary research, patent development and knowledge application and be active partners in the growth and development of not only Indian society but also the humanity as the whole.

**Anup K Singh, Ph.D.**  
Director General

# Innovative Initiatives

## International Management Program for an Accelerated Collaborative Traction (IMPACT)

Nirma IMPACT program was launched by the Director General on August 9, 2017. It is observed that with advancement in communication technologies, affordable travel and changing mindset of people around the world, the globalization has been increasing at all levels in last decade. It is an opportunity for the universities to leverage on this and work for the mutual benefits through strategic partnerships with academic institutes. In addition, the collaboration with multi-national companies would also help in practical research, employment and social engagement.

The IMPACT program would focus on planning and executing the global collaborations for the enhancement of the quality of education adopting the dynamics of 21st century education to our students. The program would endeavor to strengthen, promote and develop international tie ups beyond exchange programs & research cooperation between the institutions and industry on the basis of equality and mutual benefit.

The steering committee including the top management of the university and heads of the institutes and an advising consultant is formed to guide and steer the program in the right direction. A senior faculty member is delegated the responsibility as the IMPACT program leader who will work with the team involving one faculty member from each institute as the single point of contact (SPoC). The salient features of the program includes;

- Fostering expertise and academic links and cooperation at international level.
- Development of interdisciplinary sustainable international academic tie ups
- Connecting the existing dots for enhancing the International institutions tie ups
- Development of industry oriented sustainable international tie up
- Strengthen the industry bonds for training, innovation, research and beyond.

The phase I will focus on academic institutes while the phase II on industries.

Stretch of Pavement using Paver Blocks of Alkali Activated Concrete at Jaspur Village, Dist. Gandhinagar

Dynamic Testing of Gopuram Structure through Shock Table Facility

## Collaborative Initiative

As a part of IC-IMPACTS research project (A collaborative initiative between Civil Engineering Department, IT-NU and University of Victoria, Canada), students of M. Tech. (CASAD) Semester - IV constructed a stretch of rural pavement of size 2.5m × 16m, using Alkali Activated Concrete Paver Blocks at Jaspur village, Dist. Gandhinagar, located at around 6 kms away from Nirma University campus during April 26, 2017 to April 29, 2017.

## Dynamic Test

Civil Engineering Department, IT-NU conducted a Dynamic Test on Gopuram Structure, a central important structure, of upcoming Nalanda University, Rajgir-Bihar. Gopuram is a massive, medium height structure with Reinforced Concrete wall cladded with Compressed Stabilized Earth Block prepared out of local soil from Kamalsagar, a lake of the campus. Prof. Sharad Purohit and Prof. Paresh Patel had derived a 1/4<sup>th</sup> scale model of the Gopuram which was then erected on unique Shock Table Facility. Structure was instrumented with Uniaxial & Triaxial Accelerometers which are connected to computer system and was tested under series of shocks applied through pendulum. The test was witnessed by Dr. Alka Mahajan, Faculty Members, PG students and Professionals.

## Courses on Foreign Legal System

As part of institute elective courses, the institute conducted two elective courses on Foreign Legal System – Course on European Legal System and Course on Chinese Legal System. Prof. Peter Shaefer from Hof University, Germany taught the students the course on European Legal System and Prof. Dunja Stadtmann from Hof University taught the course on Chinese Legal System.

In order to make students aware of climatic concerns in their design and to conduct experiments, a climatology lab with modern equipments has been established at IA&P-NU. A sun emulator heliodon is set up as an interactive teaching learning tool for testing and comparing alternative climate responsive architectural design.

The centre for photography is being set up at the IA&P-NU under the leadership of Prof. Dalwadi and Prof. Nikam. It will encourage photography as a tool for documentation and design at the University.

## Climatology Lab

In order to make students aware of climatic concerns in their design and to conduct experiments, a climatology lab with modern equipments has been established at IA&P-NU. A sun emulator heliodon is set up as an interactive teaching learning tool for testing and comparing alternative climate responsive architectural design.

The centre for photography is being set up at the IA&P-NU under the leadership of Prof. Dalwadi and Prof. Nikam. It will encourage photography as a tool for documentation and design at the University.

# Dignitaries on the Campus

Dr. P. B. Ravikumar, Professor Emeritus of University of Wisconsin-Platteville, USA visited the Mechanical Engineering Department, IT-NU on March 01, 2017 and interacted with faculty members of the department.

Mr. Keizo Shimada, Technical Head, Hitachi-HiRel Power Electronics (Pvt.) Ltd. Gandhinagar, visited IT-NU on January 20, 2017 as chief guest of SCINTILLA-2017 and delivered a keynote address on 'Grid Stabilization Issues with Renewable Power' on January 20, 2017.

## Extramural Lecture by Shri Dr. Subhash Chandra

Shri Dr. Subhash Chandra, Chairman of Essel Group and a Rajya Sabha Member of the Parliament visited Nirma University on May 20, 2017 for extramural lecture organised by IT-NU. **P**rof. (Dr) Alka Mahajan has done her graduation in Electronics and Electrical Engineering from A.U College of Engineering, Waltair in 1983 and her post graduation leading to M Tech in Electronics Design Technology from CEDTI, Aurangabad. She subsequently did her PhD from the Delhi College of Engineering, Delhi University in the field of Electronics and Communication Engineering in the broad area of Soft Computing applied to Power Electronics applications. Dr Mahajan has over 29 years of teaching and administrative experience and has guided a number of undergraduate and postgraduate projects, with a number of publications in national and international journals and conferences to her credit. Dr Mahajan was a Member of the Standing Committee on the scheme of 'Development of Women's Studies in Indian Universities and Colleges and Capacity Building of Women Managers', constituted by the MHRD, New Delhi. She has been involved in developing and implementing innovative and meaningful programs that help student and faculty perform better in their chosen profession.

## Changing Role of a Teacher

**Dr. Alka Mahajan**, Director, Institute of Technology

Traditionally we are in a system where responsibility and accountability is perceived to be one sided. So, when it comes to teaching or learning, a child is brought up to accept it as a passive process where the role of the teacher is supreme. We have, as a system failed to create an interactive teaching –learning environment. Right from the kindergarten class, a child is taught to keep quiet and listen, the inquisitive spirit broken, the urge to innovate curbed over the growing years, be it at home or school or college. So when today we find ourselves at a disadvantage, we need to relook at our notions of teaching and the role of a teacher. The change as changes go, though essential, is not easy to bring about. A change in mind set is the most difficult and slow to bring about but do it we must.

### What has changed?

Early education, guidance, career decisions was easily the responsibility of parents and elders in the family. We have as a culture believed in handing down knowledge passed on by generations or in the least have drawn on that knowledge to guide or take decisions. That knowledge repertoire which came from more stable times is no longer relevant when decisions are today based on multidimensional fast changing scenarios. A parent today no longer feels competent or confident of taking a decision, more so when the child is better informed. A parent today is happier to pass on that responsibility to the teacher and there is an increasing dependence on the institutions of formal education.

Secondly Universities and institutes of higher learning must wake up to the fact that they are no longer the sole custodians of knowledge warehouses. There is a whole new world out there which is better equipped to keep up with the change. They need to accept that their role is changing from providers to facilitators. Not only must universities (and teachers) keep updating their knowledge base but must also take on the new role of teaching the young how to screen and make good use of the vast knowledge base out there. Institutes and Universities need to be more forward looking and flexible in their approach. Unfortunately these are today mostly viewed as degree awarding bodies, complacent about the systems set up, unwilling to let go, something to put up with and not a place where one can be enlightened and free to pursue their interest. Educators and education managers are yet to come to terms with the changing world and hardly take advantage of the global exposure.

The good thing is students today learn differently; they are gradually owning up responsibility for their own learning and are becoming adept at finding the means to do it. Obviously the internet with knowledge at fingertips has made it easy. Learning has evolved but has teaching changed? Teachers and educators have been slow to adapt. Earlier the reason for absenteeism was either having slept in late or having found another interest but today the most common reason is - where is the need to come to class when there are better YouTube lectures and learning can be at one's own pace and interest? And how have we dealt with the change? By making attendance mandatory rather than making a classroom interesting! I do agree that in the larger interest having an attendance norm is necessary but we also owe it to the learner to make it worthwhile to attend class.

So, the third major factor to bring in the reform in education delivery is the competence and role of the teacher in the changing scenario. What kind of competencies are we talking about? And why does the role have to change?

A 'Working Paper' based on the reports submitted by UNESCO's member States identified the desired changes in the role of the teacher after due deliberation. What follows is my take on the findings.

A teacher needs to accept more responsibility for the organization of the content of learning and teaching. The responsibility cannot be just limited to delivering packages of information efficiently. He needs to organize the content in such a way that the student relates to new data with his past experiences, integrate it with his intelligence and develop skill and understanding of the content being taught.

A teacher has always been viewed as a possessor of fixed knowledge and is entrusted with the job of transmitting it to the student. In that he assumes a superior role till the quota of knowledge transfer is accomplished. However, we have reached a stage where new knowledge is being discovered faster than that can be possessed by the teacher. And hence in the changed paradigm, a teacher needs to be a partner in learning, an experienced learner. He needs to be a facilitator rather than a provider. A teacher needs to realize that he no longer holds the sole rights to knowledge, but needs to accept that there is new knowledge all around him and a student is already in the know of its easy availability. So one needs to be a mediator between a student and the vast, fragmented and at times inaccurate information that may overwhelm him.

The relationship between a teacher and a student also has undergone a major shift; it is more and should be on an equal footing. "When college is more about career than ideas, when placement package matters more than wisdom, the role of Professors changes" - Mark Bauerlein. In earlier times students wanted to engage with the teacher out of classroom, have consultations and in general looked up to the teacher for guidance. That no longer is true, majorly because their interest is driven by reasons other than quest for knowledge. Pay packages and promise of good life is what drives the student community today, they no longer look up to the Professor for worldly and moral understanding. The teacher then should be concept driven than content driven. His lecture should be highlights of the topic made interesting enough for the student to thirst for more. He should find ways to make his lecture enjoyable and thought provoking rather than delivering it at the pulpit. A teacher today needs to understand that he has limited time to make an impact.

Students love novelty; they get disinterested very easily; they have seen better things done with the help of technology. Earlier good teaching was associated with good communication; the digital world has taken that away from us. So the teacher today has no option but to use modern tools for teaching. And by that I do not mean badly made power point presentations! Nor do I mean that teachers need to bend backwards to learn technology. The need of the hour is to be open to the use of technology in teaching and what better than to involve the student in the process? One does not have to learn to create using technology, but the students want to. So the best way is to let students create interesting videos, simulations on the concepts you wish to teach and the role of the teacher then would be to judge and appreciate what they have done. Not only does it bring them to class but makes them own their learning. Another related aspect that needs to change is the type of homework we give. Descriptive, typical questions take away the challenge, the fun in learning. Innovative assignments like creating blogs, movies, digital stories which allows them the use of laptops instead of passively writing will serve the true purpose of giving homework.

Teachers are known to be proud of their speaking prowess, they can hold fort for the prescribed hour long lecture without missing a beat. But the changing world needs a teacher who is a good listener too. One needs to hear the unsaid and change accordingly. The relationship between a teacher and student has traditionally been a formal one; one which comes from a false notion of power and is forgotten the moment the contact is lost. A teacher needs to engage with students outside the classroom. The role is not limited to academics alone but extends to sharing other interests of their students. We need to step down from the pedestal and understand that the learning is now both ways. A stronger relationship which a student would love to revisit is one which is born out of a sense of camaraderie, collaborative learning and one based on mutual respect. That is a teacher in the changing world which each one of us should aspire to become.

## NICOM

The 20th Nirma International Conference on Management (NICOM) was organized by IM-NU during January 5 to 7, 2017. Its central theme was Contemporary Marketing: Concept, Practice & Method which had number of marketing sub-themes. In total, 195 abstracts and 120 full papers were received. The papers were received from India and abroad, mainly from the countries like Rwanda and Bangladesh. The selected papers were published in two books as Conference Proceedings with ISBN number by Excel India Publications, New Delhi. The Conference had total registrations of 128 delegates.

The Chief Guest of the inaugural session Mr. M.G. Parmeswaran, Brand Strategist, Founder at Brand-Building.com and former CEO, FCB Ulka threw light on the role that emotional advertisements play in attracting consumers and changing contemporary marketing.

## The Sixth International and Tenth Biennial Conference of the Indian Society of Victimology

IL-NU organised the Sixth International and Tenth Biennial Conference of the Indian Society of Victimology on February 23-25, 2017 on the theme Ensuring Victim's Participation in the Criminal Justice System. The conference was inaugurated by Hon'ble Mr. Justice Mohan Pieris, Former Chief Justice and Attorney General of Sri Lanka. Various legal luminaries like Prof. G.S. Bajpai, Chariman, Indian Society of Victimology and Registrar, National Law University, New Delhi, Prof. Xin Ren, California State University, USA, Prof. Heru Susetyo, University of Indonesia, Prof. Gerd Kirchhoff, Professor of Victimology and Criminology, OP Jindal Global University remained present for this occasion.

## 9<sup>th</sup> Annual Public Lecture of Institute of Law, Nirma University

On January 7, 2017, the Ninth Public Lecture in the Annual Public Lecture Series was delivered by Hon'ble Mr. Justice Dr. S. Muralidhar, Judge, Delhi High Court on Access to Justice: Distant Reality.

## 7<sup>th</sup> International Moot Court Competition

IL-NU organized its flagship event, the 7<sup>th</sup> IL-NU National Moot Court Competition, 2017 in association with the Chambers of Shri K.T.S Tulsi from February 10-12, 2017. Forty-seven law colleges across the country participated in this competition. The team of NLIU Bhopal was declared the winners of this competition and team of NLU Kochi bagged the Runners up trophy.

## Mediation Training Workshop

The Mediation Training Workshop was conducted for the students of Semester VIII as a part of ADR Clinical Paper in two phases from February 17 – 18 and March 3 -4, 2017 by Mr. Niranjan Bhatt, Senior Advocate and Managing Trustee, AMLEAD and Ms. Veena Ralli, Advocate, Supreme Court of India and Additional Organizing Secretary, Delhi High Court Mediation Centre. The emphasis of the workshop was on practical exercises by way of role play, simulation exercises wherein students took up practical problems and acted as mediators, clients and advocates to resolve disputes related to various areas.

## 6<sup>th</sup> National Conference on International Humanitarian Law and Refugee Law

Centre for International Humanitarian Law Studies and Human Rights, IL-NU in association with the International Committee of the Red Cross (ICRC) and United Nations High Commissioner for Refugees (UNHCR) organized the sixth edition of its annual flagship event – IL-NU National Conference on International Humanitarian Law and Refugee Law on March 16, 2017.

## National Conference of IP-NU (NCIP) 2017

A 2nd National Conference of IP-NU was organized on theme of 'Emerging Trends in Drug Discovery, Development and Molecular Targets for Cancer Research' during January 24-25, 2017. The conference was inaugurated by Chief Guest Dr. Shilin Shukla, Professor Emeritus and Ex-Director, Gujarat Cancer Research Institute and Guest of Honor Dr. Harish Padh, Ex-Vice Chancellor Sardar Patel University and renowned researcher in field of Cancer and Genetics.

## Workshop on Forest Law

A workshop on Environment and Forest Law was organized during February 16-17, 2017 at IL-NU. Ms. Arpitha Kodiveri, Senior Research Associate, Ashoka Trust for Research in Ecology and the Environment (ATREE), Bangalore and Mr. Geentanjoy Sahu, Researcher, Centre for Science Technology and Society, School of Habitat jointly conducted the workshop for the students of Semester X.

## CCE Workshop on Molecular Biology Techniques: Cloning to Expression

A workshop on "Molecular Biology Techniques: Cloning to Expression" was conducted during January 16-18, 2017 by IS-NU, under the aegis of Center of Continuing Education, Nirma University. The workshop was sponsored by ICMR, New Delhi and supported by Orange Biotech, Chennai. Dr. Shalini Rajkumar was Coordinator and Dr. Rajeev Tyagi was Co-coordinator for this workshop. The main objective of the workshop was to train young researchers and faculty members in techniques of recombinant DNA technology and acquaint them for research in molecular biology. The sessions were conducted by our internal faculty Dr. Shalini Rajkumar supported by her research scholars.

## Donation of Used Spectacles

On April 7, 2017, M.Sc. students contributed to the social initiative by ophthalmologist Dr. Tejal Dalal, Tej Center for Eye Care by donating used spectacles, extra frames which Dr. Tejal uses for the children and old people who need and cannot afford buying the spectacles.

Students of B. Plan., IA&P-NU programme visited Dandi village, Navsari (Dandi march fame led by Mahatma Gandhi) for rural studio in February, 2017. During their stay they undertook a social activity of cleaning the main stretch of Dandi beach. It helped enhance the environmental consciousness in budding planners.

Students of B. Arch. programme undertook the community service of teaching and interacting with young children of underprivileged background (construction work sites and the slums) with the help of NGO, Saath Charitable Trust, Ahmedabad between January 27-30, 2017. Children indulged in creative activities like paper craft, drawing and painting, elementary and health and hygiene education.

# Academic Development and Research (ADR) Cell

Dr. Paresh Patel, Dr. Urmil Dave, Dr. Parul Patel and Dr. Sharad Purohit, Civil Engineering Department, IT-NU had participated in National Seminar on "Quality Initiatives: Gateways and Pathways to Institutional Excellence" during March 3, 2017 to March 4, 2017, organized by ADR Cell at Nirma University.

Prof. Sandesh Sharma, Prof. Hiral Thaker, Prof. Viraj Parekh and Prof. Arth Dalwadi, Civil Engineering Department, IT-NU has participated in Faculty Induction Program for newly joined faculty members during May 29, 2017 to June 24, 2017, organized by ADR Cell at Nirma University.

Prof. Kruti Lavingia, underwent 'Research Orientation Programme' organized by ADR cell during June 5-10, 2017.

Dr. Sharada Valiveti attended national seminar conducted by ADR cell on Quality Initiatives: Gateways and Pathways to Institutional Excellence during March 3 – 4, 2017.

Prof. Reshma Lakhani and Prof. Moni Baniya underwent Faculty Induction Programme organized by ADR cell during May 29, 2017 – June 23, 2017.

# Centre for Continuing Education (CCE)

CCE organized following programmes:

A one day workshop on Big Data System Design under CCE was organized in EC, IT – NU on 23rd January, 2017. Dr. N. P. Gajjar and Dr. D. K. Kothari coordinated the same.

A one day workshop on Big Data System Design under CCE in EC, IT – NU on January 23, 2017

Workshop on Molecular Biology Techniques: Cloning to Expression conducted by Institute of Science on January 16-18, 2017

One Day Workshop on Big System Design conducted by Institute of Technology on January 22, 2017

Certificate Program on International Taxation conducted by Institute of Law on January 22, 2017 to February 26, 2017

Management Development Programme on 'Managerial Skills for Supervisory Personnel' conducted by Institute of Management on February 06-08, 2017

Workshop on Computer Aided Drug Design Software conducted by Institute of Pharmacy on February 17, 2017

One Day Workshop on Speech Processing for Beginners conducted by Institute of Technology on April 8, 2017

Faculty Development Program on Embedded System Design conducted by Institute of Technology on May 25-26, 2017

Three Days Interactive Orientation Programme on Engineering Graphics – A Language of Engineer conducted by Institute of Technology on June 12-14, 2017

## PhD Awarded

Prof. Ritesh Patel has been awarded Ph. D. in Management from Gujarat University, Ahmedabad on title, 'A study of Pre & Post-Merger Financial & Stock Return Analysis of Selected Indian Banks with in Investor's Perspective', as on May 2, 2017.

Prof. Jatin Dave of IT-NU has been awarded Ph.D. in April 2017 from Nirma University for his thesis entitled "Stress Analysis of Symmetrical and Unsymmetrical Laminates having Cut-outs of Arbitrary shape subjected to different Loading conditions".

Prof. Mihir M. Chauhan of IT-NU has been awarded Ph.D. in April 2017 from Nirma University for his thesis entitled "Stress Analysis of Finite Laminated Composite Plate with Discontinuity".

Mr. Kunal Pathak was awarded Doctor of Philosophy (Ph. D.) degree at SVNIT, Surat in February, 2017. He carried out his research work in the field of Computational Biology under the guidance of Dr. Neeru Adlakha. The title of the thesis is "Computational Models to Study Calcium Dynamics in Cardiac Myocytes".

## Faculty Achievements

Prof. Dr. P. N. Tekwani (Professor and HoD – Electrical Engineering, IT-NU) Receiving Rajarambapu Patil National Award – 2016 for the Promising Engineering Teacher for Creative Work done in Technical Education. He received the award from Prof. Dr. Anil D. Sahasrabudhe (Chairman - AICTE), and Prof. Dr. G. D. Yadav (Vice Chancellor – Institute of Chemical Technology). The award was presented during 46th ISTE National Annual Convention & National Conference held at Gulzar Group of Institutes, Khanna, Ludhiana (Punjab) during 10-12 February, 2017. The theme of the national conference was 'Intelligent Technologies for Better Tomorrow'.

**Prof. Sameer Pingle** was conferred Certificate of Distinction for excellence in teaching by HoF University of Applied Sciences, HoF, Germany during International Teaching Week in May, 2017

**Dr. Madhuri Parikh**, Associate Professor, IL-NU was conferred the Achiever's Award in the Field Research category at the 5<sup>th</sup> Conclave on Excellence in Education, Delhi on April 22, 2017.

## Faculty Recognition

- **Dr. Urmil Dave** visited University of Victoria (UViC), British Columbia, Canada as a part of ongoing IC-IMPACTS research project from 29<sup>th</sup> May, 2017 to 30<sup>th</sup> May, 2017. The activities related to the project were observed. He has also delivered a talk on 'Research Activities in context to Alkali Activated Concrete at Nirma University, INDIA' to the fourth year selective students of B. Engg. Programme of University of Victoria on May 30, 2017.
- **Prof. H. K. Patel** awarded with Distinguished Society Service award in ISA Automation week 2015-16 conducted by ISA District-14.
- **Dr. Krishna Bipin Mehta**, Assistant Professor was awarded the title of 'Emerging Daughter of Gujarat' by the Swayamsiddha Foundation on World Daughter's Day on January 12, 2017
- **Dr. Sriram Seshadri**, was awarded with Award for Research Excellence by The Indo-US Educational Foundation and Omics International Publications owing to his recent research work and publications in the year 2015 and has been appointed as International Grant reviewer by Czech Science Foundation, Czech Republic due to his expertise on Gut Microbiota.
- **Prof. Pawan K. Chugan** was Elected National Council Member and Chairman of STD Ahmedabad Chapter for the year 2017-18. He is also appointed as Editorial Board member for the International Journal of Business and Management Science - EPH Journals, Adelaide, Australia.
- **Prof. Sunita Guru and Neha Singh** won ET Cases Award for showcasing a futuristic and progressive idea organized by Global summit on management cases by IIM Raipur on February 10-11, 2017.
- **Prof. Ritesh Patel and Prof. Nikunj Patel** won the best paper award (Third prize) for the paper " Stock Market Efficiency in Selected Economies" at Anvesh 2017 - Doctoral Research Conference in Management, at IM-NU, Ahmedabad as on April 7-8, 2017.
- **Prof. Nina Muncherji** was invited to be on the Interview Panel at Gujarat Info Petro Limited, Gandhinagar for the position of Sr. Officer & Manager (HR) on 1st July, 2017 and was invited to deliver an Expert Lecture at Institute of Pharmacy, Nirma University in the ISTE Approved STTP on "Transforming Higher Education through Innovative Pedagogical Tools" on the topic 'Course Design for Effective Teaching' on July 4, 2017.
- **Prof Indu Rao** received an award from GJEPC (Gems and Jewellery Export Promotion Council) , Ministry of Commerce and Industry, Govt of India for contribution to Indian Diamond Industry, an award from South Gujarat Chamber of Commerce and Industry for "Carrying outstanding research and immense contribution to Indian Diamond Industry" and an award from Sarvajanik Education Society, Surat for "Exemplary academic contribution by carrying out research and showing a way forward to Indian Diamond industry". She also won the Best Paper Award for the paper "Cultural Governance for "Sustainable Development" at the National Youth Summit held on January 30, 2017 at Knowledge Consortium of Gujarat, Ahmedabad.
- **Prof. Rajesh K. Jain** invited as Jury for the Case Study Competition of the National Finals of Business Games organized by ONGC at Baroda on January 3, 2017. He was adjudged as the Master Trainer for Zero Defect and Zero Effect (ZED) programme of the Quality Council of India (QCI), Ministry of Micro, Small & Medium Enterprises, Govt. of India, New Delhi in March, 2017.

## Expert Lectures Delivered by Faculty

**Dr. D. B. Shah** delivered expert lecture on "Finite Element Methods" in five days CEP on "Finite Element Methods: A Universal Tool for Engineering Analysis at SVNIT, Surat on January 03, 2017.

**Dr. S. J. Joshi** delivered expert lecture on "Finite element analysis - Case Studies" in STTP on Introduction to Boundary Element Method at L D College of Engineering, Ahmedabad on January 10, 2017.

**Dr. V. J. Lakhera** delivered an expert research talk in one-day workshop on "Computational Fluid Dynamics" **at** NITTTR, (Under MHRD, Govt. of India) on May 11, 2017

**Dr. R. N. Patel** delivered an expert research talk in one-day workshop on "Energy Conservation in Plant Equipment" **at** NITTTR, (Under MHRD, Govt. of India) on May 10, 2017

**Dr. R. R. Trivedi** delivered an expert lecture on "conventional optimization technique using matlab" in sttp on "Modelling and Optimisation Techniques for Engineering Applications (MOTEP) at CGPIT, Ukatarsadia University (UTU), Bardoli on March 29, 2017

**Dr. J. M. Dave** delivered an expert lecture on "FEA meshing using hyperworks" and "Static Analysis in Hyperworks" in sttp on "Software Application for Design and Analysis in Mechanical Engineering" at Chhotubhai Gopalbhai Patel Institute of Technology (CGPIT), Bardoli on April 04, 2017

**Dr. V. J. Lakhera** delivered an expert research talk on "Thermal Insulation for Process Plants" in a training programme on "Advances in Design of Process and

Equipment for Process Plants' at Navrachana University, Vadodara, one-day workshop on "Computational Fluid Dynamics" on May 09, 2017

**Dr. B. A. Modi** delivered expert lecture on "Industrial Practices in Sheet Metal Forming" in training program for faculty members at RCTI campus, Ahmedabad under National Institute of Technical Teachers' Training and Research Institute under MHRD Govt. of India, on May 17, 2017

**Prof. Sarat Dalai**, Director, IS-NU was invited to deliver a talk entitled "Modulation of CD8a+ DCs by infectious sporozoites correlates with enhanced protracted protection against liver stage Plasmodium infection" February 16 - 18, 2017 Immunocon - GITAM Institute of Medical Sciences and Research

**Dr. Shalini Rajkumar, Associate Professor of IS-NU** was invited as a resource person at UGC-CAS Department of Biosciences, Saurashtra University organized National Conference on "BIODIVERSITY AND BIORESOURCE UTILIZATION" during March 9-10, 2017. The title of her talk was Mechanisms and Application of Genome Editing Technologies in Biodiversity and Bioresource Utilization

**Dr. Vijay Kothari**, Assistant Professor of IS-NU delivered a talk "Altered Gene Expression Associated with Enhanced Violacein Production in Sonic-stimulated Culture of Chromobacterium Violaceum" during second conference on Next Generation Sequencing, at Center for Cellular and Molecular Biology, Hyderabad on February 24, 2017.

**Dr. Sriram Seshadri**, Assistant Professor of IS-NU attended the DST Investigator's Meet at Dr. Reddy's Institute of Life Sciences, University of Hyderabad, Hyderabad and gave an invited talk on "Modulation of Gut Microflora as an Alternative Strategy for the Diabetes Prevention/ Treatment on 26-January 27, 2017.

**Dr. Sonal R. Bakshi**, delivered invited lecture entitled "Seed, Soil, Gene, Non Gene: Jigsaw puzzle of human (genetic) disease" on 18 May, 2017 at Summer Training Programme organized by the 'Iladevi Cataract and IOL Research Foundation & Gujarat University', Ahmedabad.

**Dr. Nasreen S. Munshi**, delivered invited lectures, one on "Mechanisms of DNA Damage and Repair" and another on "Bacterial Metabolism and Fueling Reactions" during GSBTM sponsored BT-CBC Crash Workshop at Pramukh Swami Science & H.D. Patel Arts College, Kadi on May 7, 2017

**Prof. Utpal Sharma**, delivered following lectures at various institutes. Appeared in IVth World Planning Congress at Federal University of Rio-de-Janerio, Brazil, as presenter in the Plenary Session (PS) "Nature in the City: Interactions and Contradictions". He attended 19th Arcasia Forum conference held at Jaipur and was the Keynote Speaker in ARCSIA 2017. He also attended 6th Asia Pacific Ministerial Conference on Housing and Urban Development arranged by The Ministry of Housing and Urban Poverty Alleviation (MoHUPA), Government of India at New Delhi.
